Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Michael Spinka)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 60 pages. OCLC Number: (OCoLC)500853118 Subject: Educational tests and measurements -- United States -- States -- Evaluation. Excerpt: . . . Table 1: Illustration of Depth of Knowledge Levels

Depth of knowledge level	Description
Level 1 - Recall	Includes the recall of information such as a fact, definition, term, or a simple procedure, as well as performing a simple algorithm or applying a formula. Other key words that signify a Level 1 activity include identify, recall, recognize, use, and measure.
Level 2 - Skill Concept	Includes the engagement of some mental processing beyond a habitual response. A Level 2 assessment item requires students to make some decisions as to how to approach the problem or activity. Keywords that generally distinguish a Level 2 item include classify, organize, estimate, make observations, collect and display data, and compare data. These actions imply more than one step. Other Level 2 activities include noticing and describing non-trivial patterns; explaining the purpose and use of experimental procedures; carrying out experimental procedures; making observations and collecting data; classifying, organizing, and comparing data; and organizing and displaying data in tables, graphs, and charts.
Level 3 - Strategic Thinking	Requires reasoning, planning, using evidence, and a higher level of thinking than the previous two levels. In most instances, requiring students to explain their thinking is a Level 3. Activities that require students to make conjectures are also at this level. The cognitive demands at Level 3 are complex and abstract. The complexity does not result from the fact that there are multiple answers, a possibility for both Levels 1 and 2, but because the task requires more demanding reasoning. Other Level 3 activities include drawing conclusions from observations, citing evidence and developing a logical argument for...
