

Constructive Methods of Wiener-Hopf Factorization

Filesize: 4.29 MB

Reviews

These kinds of publication is the ideal pdf offered. It generally is not going to expense too much. I am just delighted to let you know that this is actually the very best book i have go through inside my very own life and might be he finest ebook for ever.

CONSTRUCTIVE METHODS OF WIENER-HOPF FACTORIZATION

DOWNLOAD

Book Condition: New. Publisher/Verlag: Springer, Basel | The main part of this paper concerns Toeplitz operators of which the symbol W is an $m \times m$ matrix function defined on a disconnected curve r . The curve r is assumed to be the union of $s + 1$ nonintersecting simple smooth closed contours r_0, r_1, \dots, r_s which form the positively oriented boundary of a finitely connected bounded domain in t . Our main requirement on the symbol W is that on each contour r_j the function W is the restriction of a rational matrix function W_j which does not have poles and zeros on r_j and at infinity. Using the realization theorem from system theory (see, e. g. - [1], Chapter 2) the rational matrix function W_j (which differs from contour to contour) may be written in the form $W_j(z) = I + C_j(A_j - zB_j)^{-1}B_j$ where A_j is a square matrix of size $n_j \times n_j$ say, B_j and C_j are $n_j \times m$ and $m \times n_j$ respectively, and the matrices A_j have no eigenvalues on r_j . (In (0, 1) the functions W_j are normalized to I at infinity. | I: Canonical and Minimal Factorization.- Editorial introduction.- Left Versus Right Canonical Factorization.- 1. Introduction.- 2. Left and right canonical Wiener-Hopf factorization.- 3. Application to singular integral operators.- 4. Spectral and antispectral factorization on the unit circle.- 5. Symmetrized left and right canonical spectral factorization on the imaginary axis.- References.- Wiener-Hopf Equations With Symbols Analytic In A Strip.- 0. Introduction.- I. Realization.- 1. Preliminaries.- 2. Realization triples.- 3....
