

Risk Management and the Rate of Project Success within Multi-Projects Environment

By Emmanuel Ezeoke

GRIN Verlag Feb 2016, 2016. Taschenbuch. Book Condition: Neu. 210x148x4 mm. This item is printed on demand - Print on Demand Neuware - Master's Thesis from the year 2012 in the subject Business economics - Miscellaneous, grade: 1.5, , course: MSc Project management, language: English, abstract: This is research has the intention to examine risk management in multi project environment with the aim of finding out how organizations do their risk implementations and if the implementation of risk processes within participant organizations has any impact on the rate of project success within a multi-project environment. As found in most literatures, project risk management has concentrated more on single standalone projects as opposed to managing project risk as portfolio where lesson learned from one project could be of benefit to another project within the same project environment. As risk management in projects has evolved over the recent decades as an integral part of project management in recent time, it has gained tremendous attention within the industrial sector because of an increased awareness about the relationship between efforts to reduce risk and project success. Within the academic community, there is the existence of gap in literatures regarding risk management in multiple project...
