Excerpt: . . . impact safety and non safety-grade systems, highlight the role of human performance as a crosscutting issue. Additionally, current HRA screening analysis procedures would potentially discard these smaller latent errors. Training Issues Involving Non-Licensed Operators. A number of Licensee Event Report (LER) event descriptions include failures by personnel other than licensed operators. The current ROP focus is primarily on licensed operators through the requalification SDP, but there is also a supplemental inspection on training that has broader applicability. Procedural Inadequacies Contributing to Events. Thirty-eight percent of LER event descriptions contained evidence of procedural errors in design, construction, or compliance. These deficiencies primarily affected normal, abnormal, and maintenance procedures. Currently, procedures are indirectly assessed when work packages are reviewed, under the operator requalification SDP, during use of post-maintenance testing inspection procedures, during evaluation of surveillance testing inspection procedures, during the assessment of personnel performance during non-routine...
