O'Reilly Media, Inc, USA. Paperback. Book Condition: new. BRAND NEW, Solaris 8 Administrator's Guide, Paul Watters, The Solaris operating system is a scalable platform on which to build e-commerce products, and on which to support all networked services. Yet, one problem that potential users face is finding out more information about what Solaris offers. The practical focus is on supporting relevant contemporary networking technologies. "Solaris 8 Administrator's Guide" provides you with a third-party view that not only praises Solaris, but is critical...
